

East Dean & Friston

Parish Council

Date: 7th September 2017

Title: Report Item 8b – ESCC Yellow Lines Meeting 10/08/2017

By: Cllr Phill Hill

Purpose: To provide a report on the meeting and make recommendations

Recommendations: a) To note the report
b) To apply to ESCC Highways for a licence to place concrete planters on the highway verge at the A259/Micheldene Road junction
c) To request permission to place No Parking signs on the wall of Friston Churchyard along the slip road

Present: Cllr Stephen Shing ESCC
Ian Johnson ESCC
Jo Reed ESCC
Cllr Paul Seeley East Dean PC
Cllr Ian Haydock East Dean PC
Cllr Phillip Hill East Dean PC

The meeting was called to review the provision of additional Yellow Lines around the Villages of East Dean and Friston, an issue which has been on the Agenda for some 3 or 4 years:

- Gilberts Drive/ Lower Street Junction - The junction was inspected and it was agreed that lines should be provided opposite the lower street exit onto Gilberts Drive as well as to both sides of Lower Street where it exits onto Gilberts Drive in order to keep the junction clear and avoid congestion. Parish Clerk to confirm to Jo Reed the extent of the Conservation Area as this will affect the type and colour of yellow lines applied. [Map of Conservation Area sent 18/08/2017]
- Thai Terre - The area was inspected and due to the narrowing of the road at the Thai restaurant it was agreed to extend the existing yellow lines to the door of the Thai Terre restaurant. This area is inside the Conservation Area.
- Upper Street/Bowls Club - Again the area was inspected and in order to maintain traffic flows it was agreed to apply yellow lines opposite the bowls club exit and also along the narrow road section adjacent to the

holiday cottages all the way to the A259 junction. Again, inside the Conservation Area.

- Upper Street Drainage - The drainage issue was inspected and it was suggested that if the vegetation was cleared on the West side of Upper Street this might allow the water draining from Friston Hill to enter the 2 drains. Cllr Seeley to liaise with Tom Lee from ESCC who attends the SLR meetings. [Online report logged under Ref: 00146563]
- Micheldene Road Junction/A259 - The issue of illegally parked cars on the verge at Micheldene was reviewed and it was agreed to place yellow lines from the junction on both sides of Micheldene back to the end of speed restriction signs. Cllr Seeley to apply through PC for a license to place concrete planters on the roadside to prevent parking at the junction.
- Friston Church Slip Road - The situation was reviewed in detail and it was agreed that no parking restrictions should be applied to the slip road as there was still the junction of Crowlink Lane with the A259 allowing access to Crowlink. It was agreed to seek permission from the Church to place No Parking signs on the flint wall along the slip road which would act as a deterrent. No further action required.

ESCC confirmed that on receipt of details of the Conservation Area from the Clerk the consultation period on additional yellow lines would commence and drawings of the proposals above would be issued to the Parish Council for comment/approval before being advertised to residents. [Note: this information was supplied on 18/08/2017 and a response is awaited].
