

Date: 05 October 2023

Title: Report Item 13 – Environmental Project Funding

By: S Adeniji (Parish Clerk)

Purpose: To agree to grant the Greensward Company up to a maximum of £600 to be spent by them on re-seeding a portion of the Greensward

Recommendations: a) To approve a grant up to a maximum of £600
b) To note the appreciation of the board of East Dean Greenswards Ltd to the Parish Council for their support

-
1. The parish council supported the re-wilding project in October 2022 by donating the sum of £600 towards it. The project was a success and the Greensward company has had so much positive feedback from residents.
 2. In 2022 the Greensward company spent the grant received from the parish council on close-mowing, scarification, weed treatment and seeding, however, this year the proposal is for mowing and scarification and they will ask Residents Association volunteers to undertake the remaining tasks. It is therefore envisaged that this will cost less than £600.00
