

Agenda Item 11 –April Meeting

Signage for Visitors

It has been recommended that signage be implemented to guide pedestrians, promote safety along designated pathways, and enhance the experience of tourists within the local area.

We need to identify positions for signage and the type of signage required along with facilities for Korean and Chinese visitors.

Use of QR (Quick Response) codes could route smartphone users to a dedicated page on the website which offers maps and guidance in a number of languages.

Web assistance from our provider would come in around £120 to £200

Proposal: To form a working group to identify suitable positions for the signage and decide on the method of information dissemination.

Phil Burgess

Clerk to East Dean and Friston
