

Agenda Item 13 –Dec Meeting

Payroll Software

I currently use the HMRC basic tools to run the payroll.

The software is time-consuming, clunky and difficult to use and the reports tend to bury the important information in in reams of unwanted data.

I have checked with other clerks in the area, and a widely used package is Moneysoft. It is less than £90 per annum for a licence and it has all the functionality needed for a parish of the size of East Dean and Friston.

I have attached a synopsis of features provided by the software.

Proposal: To purchase an annual licence for the Moneysoft software

Phil Burgess

Clerk to East Dean and Friston
