

Agenda Item 14 Aug Meeting Downlands Wall

Attached are photographs of the wall:

1. In an unstable and unsafe condition after being hit by a vehicle.
2. Post demolition

The first priority was to make wall safe and that was done within days of the damage.

3 quotations have been requested by Cllr Hill to rebuild the brick pillar on the wall in its reduced state rather than reinstating the wall to its full length.

Commercial bins can be stored next to the southern wall of the car park.

I have sent an enquiry to our insurers to check if the wall is covered under our policy.

There are a number of round flint blocks from the wall which could be sold.

Proposals: Information Item. Cllr Hill to give latest update

Phil Burgess

Clerk to East Dean and Friston
