

## **Agenda Item 18 June Agenda**

### **Fireworks on the Recreation Ground**

I understand that fireworks in November used to be a regular feature in the village. This issue was raised by the chair of the cricket club for inclusion in the AVM Q&A session but was not covered.

The last event was heavily oversubscribed. As the recreation round is a public space, it is not possible to restrict entry or charge for admission (apart from “bucket” collections).

If the event was to be re-instated, advertising would need to be specifically targeted in the village, and perhaps only run intermittently to avoid build-up of crowds.

**Proposal: To consider the practicality of re-introducing the bonfire night event.**
