

Agenda Item 19 Nov Meeting – Gilbert's Drive Footpath

This is to the West side of Gilbert's Drive between the bus stop and a point opposite the rectory.

Correspondence with ESCC (attached) first resulted in a rejection of the project as the available space was too narrow.

I pushed back on that decision as the space available (if the hedge is trimmed back to the fence) tapers from 2.7m width at the bus stop to 2.1m width opposite the rectory.

The response was then that a feasibility study needed to be carried out by ESCC at a cost to the Parish Council of £500 plus VAT.

The cost of the path (if approved) would rest with the parish council.

Proposal: To consider action required.

Phil Burgess
Clerk to East Dean and Friston
